CEUs

Earn 1.2 Continuing Education Units for participating in the workshop. Participation certificate provided.

For Additional Information

Contact the Center for Energy Efficiency with any questions about the workshop.

Purpose

To enhance understanding of M&V requirements involved in ESPC contracts through hands-on learning, including the technical background of established M&V guidelines and the development and/or evaluation of M&V plans.

Primarily designed for energy managers and contracting personnel, the workshop also will be beneficial to all energy industry professionals.

Topics

- ◆ M&V definition
- ◆ Established guidelines
- ◆ Contractor-owner responsibilities
- ◆ Approach options A, B, C, and D
- ◆ M&V plans
- ◆ Baseline determination
- ◆ Savings verification
- ◆ Value (cost vs. benefit)
- ◆ Periodic audit and reconciliation

Relevant examples of real ESPC projects will be used to develop M&V plans.

Active group exercises will provide realistic scenarios.
