

Writing Learning Outcomes for a Course

Name of Course: _____

If you need help getting started, try to answer some of these questions:

What are the main topics/skills/objectives covered in this course?

How is student learning currently being assessed in this course (exams, essays, projects, presentations, performances, etc.)?

When students complete this course with a passing grade, what do you expect them to know and to be able to do?

➤ **Now let's try to write a few student learning outcomes for this course. Use the handout provided.**
